

LPC 160 Grinding machine for straight and bent parts

Technical features:

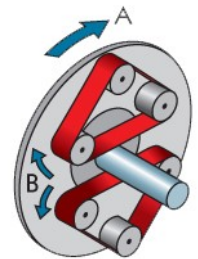

Min. / max.çap	10 / 50 mm.
Min. Bükülmüş radüs	80 mm.
Aşındırıcı zımpara ölçüsü	622x30 mm.
Disk motor	1,1 kw.
Aşındırıcı zımpara motor	2,2 kw.
Net ağırlık	185 kg.
Ölçüler	74x92xh.120 cm.

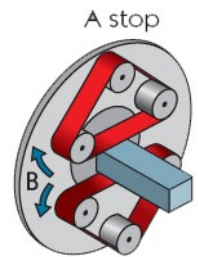

Description:

Planetary grinding machine with abrasive belts for grinding, buffing and satin finishing STRAIGHT or BENT items made of stainless steel, brass, iron, aluminium or any other kind of metal having round, oval, elliptical or irregular section.

Main feature in comparison with other machines is that our unit is equipped with 2 INDEPENDENT MOTORS: 1 for disc rotation and 1 for abrasive belts rotation .

Round and oval pipes grinding

Flat parts grinding max. 20x20 mm.

Standard Equipment :

- Motors voltage 400V 50Hz;
- Holding boards for workpieces;
- N. 4 abrasive belts in different grits;
- Adjustment wrenches;
- Instruction book;
- CE conformity certificate;
